My Fellow Miners!

I have to report that a Judge has upheld the **Moratorium** on Dredging within the State of Oregon. His findings were based on passed laws controlling and outlawing Hydraulic Mining. We all agree that Hydraulic Mining was an ugly way to recover heavy metals. However, near as I can figure facts had nothing to do with his decision as to why they wish to outlaw dredging. Salem nor Washington DC cares about the truth. PLP & MMAC are playing the Washington Game. Both see large amounts of money coming their direction. First from mining the miners and then from the Federal Government. They wish to be our spokes persons in Salem and Washington. Just to finish this, understand that the head honcho for MMAC is also attached to Green Peace and the Sierra Club. It's time to start calling and writing letters. We will have a new governing body in January 2017 I hope!

Our day outing with the Boy Scouts on the M&M Claim should be a Great Day. Last year the boys got into the digging and had a Great Time. Club will be providing Hot Dogs and Soda on Saturday the 16th of April after our training day.

May will also be a busy month. We will be teaching kids at the Myrtle Point Gun Club about mining and panning. May 14th be Oregon Youth Hunters Association day.

Head Agency: United States Department of Minerals and Mining (USDMM)
 Washington DC (New Agency to be Created by MMAC) Until
 there is Congressional Funding USDMM shall operate in
 California and be know as National MMAC. (NMMAC)

No Other Agencies. Simple. Easy.

And the MMAC budget is millions to billions less than all the other agencies and legal departments, plus MMAC gets a lot more done in a civilized non-political way than most agencies.

Received the above chart from MMAC & PLP along with their proposed structure. Note how things are linked. We have no direct representation and this is real bad. First off we have NO knowledge as to what they are doing until after the fact. Second PLP has turned against the people and joined in on this.
