NOTICE: THE CLUB IS MOVING MEETING LOCATION!

APRIL MEETING WILL BE AT THE PONY VILLAGE MALL!

NOTICE: JUNE MEETING IS CANCELED!! This is due to Outing and Holidays. What a crazy year!

Okay so we have had Squawfish and Bedrock (Jim & Diana). Good time and plenty of food. Squawfish promised to Good Gold. The picture on page two shows almost everything we found. The one nice little piece. Jerry and I did some sampling around the claim. We failed to produce Gold. Not sure if keeping the claim is worth the effort. We have had so few members attend the outings at Squawfish. Think about it. We will be going back to Squawfish the 23rd & 24th of June. We will be doing more testing.

October 21st: Outing **TBD**

November 9th: Board Meeting 6PM

November 9th: Meeting 7PM

December 3rd: Christmas Party

Bedrock however was a completely different story! Every pan of dirt had gold! I think everyone had a good time. Some even got some fishing done. To see the picture of Marvin and his catch you will have to go to face book and Peggy Burkett. Some reason the computer will not let me insert the picture into the News Letter.

Okay so we now know that SB3 was voted on and passed. Five Republicans voted yes. The Bill has now been sent to the Governor for Signing. Our State Government is out of control. This week they were to announce the end of this year's work, but it seems they haven't even done the required Budget yet! So now they have declared that they will continue until they get done! So stand by to lose even more of your Rights! Writing Letters, sending emails or phone calls does seem to work with these people. They are now a full blown Dictatorship and to hell with the people and our wishes.

Near as I can tell SB3 is on the Senate Presidents desk waiting to be signed. Then it will have to proceed back to the House Side for them to approve the changes made by the Senate. Once the house and Senate agree to the language of the Bill it will then be sent to the Governor for signature. This session in Salem is nearly over. Thus should they fail to get it signed by the Governor, they have to start over. Wish us luck and start writing letters.

Ask them this! How can dredging harm salmon when dredging happens in less than 3% of the spawning grounds? How can dredging harm the salmon when the spawning and hatching season is over by late April or early May? Ask them if they like their cheap Cell Phones? Cheap Computers? Demand answers that are scientifically proven! Ask for the independent research papers, not paid for by government . Demand all EPA / DEQ / ODF&W studies be proven by independent researchers. I know it will never happen, but we can try!
Don't forget to tell them you will be voting for the State of Jefferson and you demand that they provide EQUAL REPRESENTATION!

MINING CLAIM WORKSHEET

One requirement for maintaining placer mining claims is to determine how much work is performed on each claim in a year. To assist us in doing this **PLEASE** complete the form below after you have visited one of our claims.

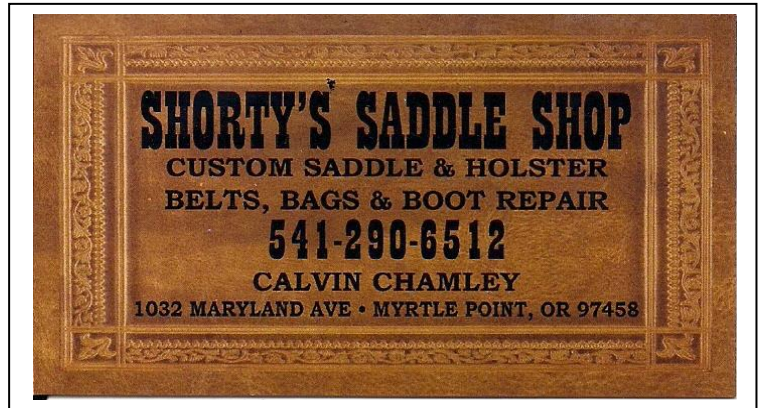

Barbara Mary
Chocolate Crunch
M&M
Squawfish

Activity Performed & # of hours

Panning
Sluicing
Dredging
