Pictures: By who every wants to!

This has been a very interesting month. Word has come from PLP (Public Lands For The People) reporting: **IN THE SUPREME COURT OF CALIFORNIA** : California was shaped by the search for gold. In time, the state's other natural treasures -- its waters and wildlife, its forests and coastlines -- proved similar draws. We consider here a conflict arising from the competing desires to exploit and to preserve these various resources. The People assert the state may, in pursuit of protecting fish habitats and the quality of the state's waterways, temporarily ban a particular method of gold mining pending adoption of suitable regulations. Defendant Brandon Lance Rinehart, convicted of engaging in the banned mining technique, asserts it is the only practicable method and federal law promoting mining on federal land preempts the state's contrary legislation. The Court of Appeals concluded Rinehart potentially was correct and remanded for consideration of additional evidence and argument. We granted the People's petition doe review.

We conclude the state's moratorium is not preempted. The federal laws Rinehart relies upon reflect a congressional intent to afford prospectors secure possession of, and in some instances title to, the places they mine. But while Congress sought to protect miners' real property interests, it did not go further and guarantee them a right to mine immunized from exercises of the states' police powers. We reverse the Court of Appeals.

This is just a little bit of what was placed within the 28/29 pages of the Courts Findings. It proves that he who has the most money will win every time. Government has the most money so you're not going to win against a system that has been being fixed against the people for over 180 years. I use this number of 180 years, because it is close to when Congress started trying to change Government. For the last 100 years Congress, Judicial Branch along with the Executive Branch has been working with extreme vigor as they grow closer and closer to complete control and take over. Trillions upon trillions of dollars have been stolen from the American People. By people who have no concept as to how to make a penny, create a real job. They only understand the crap they have been fed by College Idiots who are Socialist and Communist at Heart. The peoples failure to protect their

Rights is a totally disgusting. Our young military persons don't have a clue what they are really supposed to be protecting. They aren't taught in school or at home. So we are all to blame.

Okay! How to get to China Flats. China Flats is located just a few miles South of Powers on the road Agnes. When you arrive in Powers continue South, you will come to a 'Y' in the road. Take the lower road to the **RIGHT**. Stay on the main road and you will see a sign saying China Flats. The large flat area to the South before you cross the Bridge is the best camping area. As for an out houses (I know of one, but am not sure of the condition.) Recommend you bring your own.

Now for the Six's River Family Outing. Thanks Frank for cooking the Burgers and Hotdogs! We had two people join the club bring the total number for the outing to 27. Gold was found by those who went looking.

Note: May 19th and 20th 2017 Outing is actually a week early. I've done this because of Memorial Day Weekend. I feel responsible to my VFW Post 2928 to do my part in Honoring Our Service Personnel.
