Club Members:

Well as you can see I don't have a Group Photo from the Island Creek Outing. We didn't have our normal picture taker there as she was still under the weather. Happy to report that she is doing much better and we should see Peggy and Jerry at the next meeting.

The weather cooperated most of the time at the outing. Just a few light sprinkles during the day and rain showers at night.

Kevin and I went up to Barbara Mary Claim to do some checking. No water was to be found so no real prospecting could be accomplished. Once we have more rain it should improve the chances to get in and do some real work should we want to.

I have started work on job descriptions for President, Vice President, Secretary, and Treasurer. Hope to have the completed by meeting night. I am doing this to allow everyone to understand the extent and responsibilities to the club of each position.

Jerry and I are also working on a New Mission Statement for the Club. Hopefully this will provide a clearer understanding as to what our purpose and objectives are for the future of the club. This will also aid the Club Board and Members to understand future expenditures from our funds and plan future projects and possible acquiring some New Claims. As we discovered this past year this can be expensive.

Missed you at Lawson Bar. Yvonne and I sent a couple hours Metal Detecting. Picked up scrap-metal, but no gold nuggets. Bob/Rob E. says he did find some gold!

CONTINUED ON PAGE 3

NOTE!

ALL REGULAR MEETINGS WILL NOW BE AT THE **NORTH BEND Senior Center**

Remember! For attending club outings Credits are received which enter you into the Drawings for Gold & Prizes at the Christmas Party!

States and Federal Governments aren't backing off restricting our Rights and Freedom. Out of California comes more rulings. Seems that the California Water Board has determined that because of the shortage of water within the state they have the right to make even stricter rules and regulations as to mining. Rumor has it that Oregon is following their lead.

One way to fight this is to force our County Commissioners (as elected representatives) to reject by referendum these rules and regulations. There happens to be one on the ballot just received which will do just that. Forcing them to uphold the 2nd Amendment to the Constitution of the United States. Coos County is one of the last Counties to do this and our County Commissioners are forcing us to force them to ratify the referendum. This is one way we can fight back. It takes a lot of effort by dedicated people to push petition. Then it costs the tax payers loads of money for the ballots. However, should we be able to force enough of them. The County Commissioners would have to start listening and doing what we pay them to do. Thus they would be protecting our interest and their pay checks.
